LIBRARIAN'S REPORT

Chesterfield, N. H.

To the Trustees of the Chesterfield Library:

The annual report is herewith presented:

For the year of 1947 the total circulation of the central library was 4,581 volumes. 1,958 adult fiction, 869 adult non-fiction, 1,280 juvenile fiction and 474 juvenile non-fiction.

139 books were purchased, some less than last year because of the increase in cost of books in general. 29 of the 139 were gifts of the Hubbard fund and 23 were gifts of the Hamilton and Beckley funds.

West Chesterfield branch, Mrs. Lina Amidon, librarian, reports 300 books loaned during 1947.

Spofford branch, Mrs. Pauline Record, librarian, reports 596 books loaned during 1947.

The following people have given books to the library this past year:

James Dean

Mrs. Margaret Nurse

Mrs. Ruth Berry

Mrs. Philip Trent

Mrs. Henry Spalding

Walter Heins

We are very grateful for the interest that the High School students have taken in the library and we are trying to help them as much as our supply permits. We could use copies (with good print) of some of the works of Dickens, Scott and Stevenson.

Respectfully submitted,

ARDELLE HASKELL,

Librarian.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Chesterfield:

I herein submit my fifth annual report as Superintendent of Schools.

In order to meet the various needs of boys and girls and to prepare most of them to enter high school the modern elementary school has many new responsibilities. The development of the basic skills and abilities in reading, writing, and arithmetic are as essential as ever. More effective learning in the social studies with increased emphasis on democratic living is needed to develop better citizenship both within and outside school. An adequate school program should also provide the opportunities for directed experiences in general science, manual arts, domestic arts, music, the fine arts, health, and wider social contacts. The facilities for these objectives will be limited in many schools during the present period of shortages and high costs.

The employment of new well qualified teachers in village and rural schools is an impossibility unless nearby resident teachers are available. At the present time 70,000 teaching jobs are vacant in the United States. More than 350,000 teachers have left our public schools since 1941. Over 2,000,000 school-age children are not in school and millions of those in school are receiving inferior education due to the fact that 110,000 teachers, or one out of every eight, are serving on sub-standard permits. This problem is enhanced by increased enrollments in our schools and fewer students preparing to teach.

School districts maintaining several one or two room rural schools under these circumstances should seek to adopt a more constructive program for the welfare of its youth. Consolidation has already closed about seventy percent of the one room rural schools in New Hampshire.

The new law permitting cooperative schools for adjoining districts will probably be helpful in many areas. The classification of pupils with not more than two grades per teacher permits much better educational opportunities.

I believe that the general morale of the schools would be greatly improved if parents exerted a stronger influence on their children. Cooperative attitudes of obedience and respect for authority should start in the home. The mutual help of parents and teachers is needed by all youth at the present time.

REPORT OF MUSIC SUPERVISOR

To the Superintendent of Schools:

I herein submit my first report as Music Supervisor in the Chesterfield Schools.

We have in the schools a basic textbook for music known effectively as "On Wings of Song" published by Ginn and Company of Boston. Its fundamental purpose is to instill in the minds of the pupils the musical heritage of our country. The songs may be classified as follows: Patriotic, Traditional, Children's Songs and Games, Sea Chanties, Songs of the Cowboy, Indian Songs, Spirituals, Plantation and Religious Songs. Through the singing of these songs, the boys and girls capture the spirit that must have been in the hearts of those who built America.

The musical experiences of the pupils are not wholly confined to singing, but to the study of rhythm and music appreciation as well. We have done considerable work with "Creative Musical Activity" which brings about a better understanding of music composition.

The basic aim, however, is to make each pupil a singing personality with many types of songs at his command. This will help to develop a better manner of expression—for a singing child is generally a happy one.

In conclusion, I thank the Superintendent of Schools, the School Board and the teachers for their cooperation in helping to carry out the music program.

Respectfully submitted,
HOWARD W. PARK,
Music Supervisor.

COMMITTEE REPORT ON THE CHESTERFIELD SCHOOLS

The committee to investigate conditions in our schools and to make recommendations has followed a program laid out in cooperation with Mr. Paul E. Farnum, Chief of the Division of Administrative Services of the New Hampshire State Board of Education.

Mr. Farnum together with an assistant, Mr. Hopper, came to Chesterfield and went through all three schools. They then met with the committee and reported their findings to us. Part of Mr. Farnum's written report is as follows: "The major needs cannot be remedied easily and I refer specifically to the lack of drinking water, toilet facilities and adequate heat in at least two of your schools. While minor improvements can be made, such as providing additional electric lights, improved seating, etc., it will be difficult to provide adequate classroom space, provision for noon lunches, play room space in addition to adequate toilets and water without thoroughly remodeling the buildings."

The committee then met with Dr. Gertrude Lewis, Director of Elementary Services, and Dr. Landis who told us what the State recommended as a desirable educational program.

On Nov. 14th we visited a set of five schools as suggested by Mr. Farnum to make comparisons and get a clearer picture of the elementary school programs and the types of buildings required for these programs.

After talking with Dr. Lewis and visiting these schools and finding the facilities other towns offer their children, we realize more than ever that the schools in Chesterfield are obsolete. Of course, as most of the townspeople now realize, we need water, flush toilets and adequate heating facilities in all our schools. Granted that these improve-

ments could be provided at a tremendous expense, we still would have four grades to a teacher and classrooms, already overcrowded, could not be enlarged to take care of the increasing school population without building on additional rooms.

In view of the comparative conditions in our schools, our recommendation is that the town of Chesterfield should construct a building to house either grades one to eight or grades one to six depending on the enrollment in the district. At the present time such a building should adequately house all of the elementary pupils in grades one to eight. Later on, if the school population increased, it might be necessary to reduce the enrollment to grades one to six. This new building, well located in the community, should consist of large classrooms 30 ft. x 40 ft. with an assembly-playroom serving the school for assemblies, noon lunches, noon and recess play periods and evening gatherings of the P. T. A.

LEE D. BOWMAN,

Town Clerk

FOREST FIRE PROBLEM SERIOUS

The year 1947 was one of the worst periods of drouth and forest fire occurence in eastern United States history. Lack of water ruined crops lowered water levels and dried up brooks everywhere. Three months of deficient rainfall and abnormally high temperatures resulted in many fires which were mostly well controlled and kept within bounds. Only the high winds beginning on October 23rd caused a few fires to escape beyond immediate control. These few fires resulted in burning some 15,000 acres and the loss of 63 or more buildings in four New Hampshire towns.

All October fires were costly. They burned deeply in the ground and required day and night patrol of large crews of men until the rains came late in October. Towns which escaped from serious fires might easily have been in the midst of the most serious conflagration we had.

Governor Dale closed the woods effective at midnight of October 15th. With the blow-up of October 23rd, a second proclamation closed all back roads and authorized towns to inaugurate patrol. The effect of this was to cut down subsequent fires for the rest of the dry period.

Local fire warden forces performed an admirable job to hold the more than 200 fires that occurred during this October period. Many men were taxed to the utmost as the emergency continued. To them and all those who did their work, the people of New Hampshire owe a debt of gratitude. The state forest fire control agency based on local town wardens and town crews wherever adequately equipped rose to the occasion and met the test in whatever town their services were needed.

It is now time to take stock everywhere of our fire fighting facilities for the season ahead and to make them adequate where necessary. To this end town fire plans and training programs for wardens, deputies and other key men in each district are being arranged or in progress. If equipment and tools are insufficient to properly equip the available man power in each community with the right tools for the job, they should be provided for at once. The yearly addition of fire tools to the town supply will generally need to be built up. The state sells tools to the towns and shares one-half their cost. Good equipment is important and can help greatly to keep both damage and fire costs at a minimum.

For many years we have requested our wardens not to issue burning permits except on rainy days. This regulation will be in effect again this year as it is one of the best means of assuring such fires from getting out of control. Nine out of every ten fires can be prevented, 98 percent of all fires being due to human carelessness. Be sure to get a permit for any fire in or near woodland when the ground is free from snow. Be sure your fires are always out before you leave them. Help us in getting the traveling public to keep from throwing out lighted matches or cigarettes. Be careful of all fires in or near woodland.

F. J. BAKER,
District Chief.
